4 Courts reported the following issue with the Docket Report "View Multiple Documents" feature 8

Update Summary

Date	Section	Change
August 2025	All	Document created.

1 Introduction

This release addresses technical and functional issues reported by various courts over the last several months and includes the following bug fixes that are specific to District CM/ECF public/attorney users:

1. District CM/ECF now allows the combination of Jurisdiction 4 (Diversity) and NOS 890 (Other Statutes - Other Statutory Actions) in the District Court.
2. The Docket Report now includes only user selected documents for inclusion in an Appendix.
3. The Docket Report feature “View Multiple Documents” now retains document selections made using the “View Selected” option.

This release was tested with the following browsers:

Browser	Win 10 & 11	MacOS 15.5 – 26.0
Edge 138.0.3351.83 - 142.0.3595.80	X	
Firefox 140.0.4 – 143.0.4	X	
Chrome 139.0.7258.31- 141.0.7390.77	X	
Safari		X

Apple Device	iOS 18.62 - 26.0
iPad Air	X
iPhone 11	X

Android Device	Android 11.0
ASUS ZenPad 10	X

2 Allow the Combination of Jurisdictions: Diversity and NOS: 890 Info

CM/ECF now allows the combination of Jurisdiction 4 (Diversity) and NOS 890 (Other Statutes - Other Statutory Actions) in the District Court.

3 Courts reported an issue with the Docket Report, for user selected items for inclusion in an Appendix

Courts reported an issue with the Docket Report, where the user selected items for inclusion in an Appendix, however, additional documents were automatically added to the output. A similar issue was reported with additional documents being added to View Multiple Documents/View All Attachments selections. Now, only user selected documents are included in the output.

4 Courts reported an issue with the Docket Report "View Multiple Documents" feature

Courts reported the following issue with the Docket Report "View Multiple Documents" feature: document selections made using the "View Selected" option were no longer retained when the user clicked the Back button and then used the "Download Selected" option. This issue has been resolved.
